

Barometers, Lufft

① Precision barometer in transportable design

115 mm scale diameter, with compensated mechanism, with thermometer (-6 to +46°C), strong leather wallet and test certificate. Measurement of absolute pressure in mbar (hPa).

Measuring range m	Pressure	Order No.
0 – 500	1050 – 920	81 34 20392

② Precision barometer for stationary mounting

115 mm scale diameter, with compensated mechanism, with test certificate. Measurement of absolute pressure in mbar (hPa).

Measuring range m	Pressure	Order No.
0 – 900	1050 – 870	81 34 21872

③ Electronic barometer C300

Electronic barometer for measuring the absolute air pressure in hPa, Pa, mbar, inHg und PSI.

Battery-operated (4 batteries 1.5V AA included).

Including factory certificate according to DIN EN 10204/2.2. Optionally with traceable calibration certificate (DKD or ISO).

Technical data:

Measuring range:: 300 to 1100 hPa
Accuracy: $\pm 0,5$ hPa at 25°C
Resolution: 0,1 hPa

Article	Order No.
Electronic barometer C300	10 34 52120
