

General Use Filter Papers, Hahnemühle

Recommended for determination and identification of substances, clarification of liquids and for the preparation of samples in a great range of chemical analysis.

- Made of super-refined cellulose
- High or very high filtering speed
- For filtering of large particles
- For clarification of viscous liquids
- 3 surfaces: smooth, grained and creped
- Available as folded or plain discs

Technical specifications:

Grade	Surface	Filtration	Filtration Herzberg s	Retention of particles μm	Weight g/m^2	Thickness mm
FP0860	smooth	Medium	120	7 – 12 ¹⁾	74	0.17
FP0859	smooth	Medium	150	7 – 12 ¹⁾	61	0.14
FP0858	grained	Medium	110	7 – 12 ¹⁾	75	0.17
FP0856	creped	Fast	40	12 – 25 ¹⁾	66	0.25
FP0905	creped	Fast	40	12 – 25 ¹⁾	74	0.27
