

Gloves for Glove Boxes, WINLAB®

WW5PT042

WINLAB®

In three materials: latex, neoprene, butyl.

Work gloves fit most glove boxes, 750 mm total length, suitable for Glove-Box cuffs with a diameter of 186 mm. Thickness of gloves 6/10 mm.

Materials

Latex:

general resistance¹⁾ against medium- and weak-concentrated acids, diluted leaches as well as some ketonic solvents

Neoprene:

medium gas permeability, resistant against acids and leaches, oils, limited against aliphatic solvents

Butyl:

mostly gas-impermeable, resistant against ozone, acids and leaches as well as ketonic solvents

¹⁾The areas of usage stated here are just for orientation! They are not absolute reliable! Please ask your expert dealer for specific resistances.

Material	Size	Order No.
